When reviewing patient cards it became clear that not all dentists in station #3 were placing sealants and the patient ended up at check-out instead of station #5.

- 40 minutes is the average time in clinic for patient with no decay
- 1 hour 22 minutes is the average time in clinic for patient with decay
- 26 Patients were in clinic less than 20 minutes
- 20 patients were in clinic for over 2 hours

The average time is going to be around 7-10 minutes low, as the time stamp was not consistently recorded at the beginning of the event.
