To Provide Children in Need With a Life-Changing Dental Experience Through The Power of Sports

7th ANNUAL GOLF CLASSIC IN MEMORY OF TED REESE

MONDAY, MAY 19, 2025 | 9:00 AT THE NATIONAL, PARKVILLE MO

www.teamsmile.org

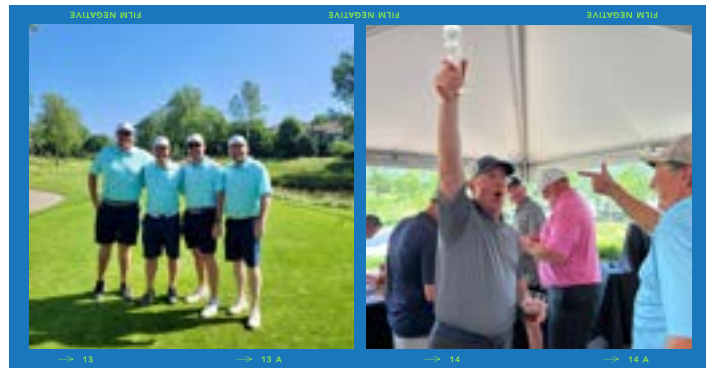

We provide children in need with a life-changing dental experience through the power of sports.

ABOUT TEAMSMILE

The Mission of TeamSmile is to provide children in need with a life-changing dental experience through the power of sports. To date, TeamSmile has conducted over 300 programs, served over 58,000 children and provided over \$21 million in free dental care and oral health education.

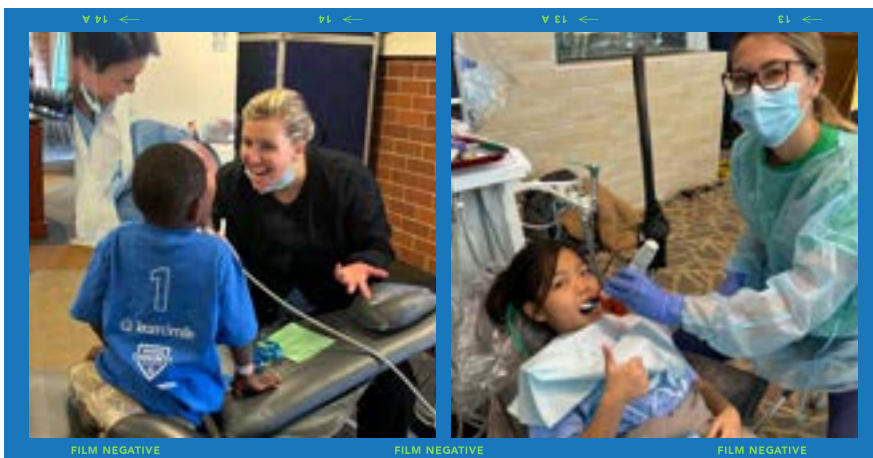

- No compromise. Our volunteer dentists, dental assistants, dental hygienists, and educators provide the highest level of care. We utilize mobile dental equipment to see our patients in non-traditional dental environments, using industry-leading materials because all of our patients deserve the best in oral health.
- We immerse ourselves, along with our pro-athletic partners, into the community. The linkage between athletes, dental care providers, and the community in need provides the inspiration and tools to make a difference in the total health and education of thousands of the communities' most underserved children.
- Our experiences are more than just one day. The goal of each program is to establish a dental home for each child treated, helping to ensure improved oral health and wellness for a life time.
- We create partnerships between volunteer clinicians, local dental homes, and families, based on our vision and mission placing the needs of underserved children first.

THE POWER OF SPORTS

In the past few years, the serious even fatal consequence of deferred dental care in young people has received growing attention in the United States. In areas where economic hardship is at its highest, oral health care is not seen as a priority in the spectrum of preventative health care needs. A case where a boy died as the result of an untreated abscessed tooth brought this problem to light on NBC's Nightly News with Brian Williams. This story inspired people, including a Kansas City dentist, Dr. Bill Busch, to reach out to members of the dental community to find a way to make a difference right here in their communities.

The intent of TeamSmile is to provide life-changing dental care and oral health education to children who otherwise would not have access to it. Additionally, TeamSmile provides the information and inspiration for children to create habits that lead to a healthy life.
