At a Glance

Total Programs	Children Served	Children Educated	Total Volunteers	Total Value of Dental Care Provided
16	2098	2449	463	\$615,575

Foreword

John McCarthy,
Executive Director

“While a worldwide pandemic clearly impacted TeamSmile, I was proud of our Board of Directors and our staff that became creative in our ability to continue to fulfill our Mission, by creating ‘Phase II’ programs and the ‘TeamSmile Virtual Oral Health Education Programs’. Despite significant challenges, we still found a way to reach thousands of children and make a positive impact. Importantly, we are so grateful to our partners that have stayed with us during these times – and ALL of our National Partners continued to support TeamSmile during these times. We are also grateful to all of our volunteers that still continued to volunteer to help us fulfill our Mission, even in creative ways. We are truly grateful.”

After a 2020 calendar year that saw TeamSmile severely impacted by the pandemic, the 2021 calendar year saw TeamSmile adapting and emerging from the pandemic, ultimately conducting programs in 16 cities, and additionally serving 2,427 children through the newly-created TeamSmile Virtual Oral Health Education and product distribution, in partnership with the University of Buffalo School of Dentistry.

Through a combination of Phase II, Phase II+ and traditional, full programs, we conducted 16 programs, served 2098 children and provided over \$615 thousand in free dental care and oral health education.

Throughout this 2021 Annual Report, you'll see much of our detailed statistical information, and you'll note many improvements and enhancements to our overall TeamSmile operation. 2021 was a year of adaptation, while navigating through various stages of the pandemic. There were challenges in dealing with unknowns, yet with guidance from the TeamSmile Board of Directors, we managed our way through the pandemic safely. If the pandemic will fade, we are positioned to phase back into full TeamSmile programs in 2022.

Given the challenges caused by the pandemic, we are proud of our achievements in 2021, and on behalf of the children that we serve, we sincerely all of those that have helped us fulfill our mission, which is to provide children in need with a life-changing dental experience through the power of sports.

2021 Programs

2021 Board of Directors

“2019 has been an exciting year for TeamSmile. We successfully ran 16 programs with a combination of partnerships with NFL, MLB, NBA, NHL and MLS teams. During 2019, we surpassed TeamSmile’s 220th overall program, and have now – collectively, over the life of TeamSmile – served over 35,000 children and provided over \$18 million in free dental care and oral health education.”
